INFORMATION FOR APPLICANT

12	Brief Description of the Assignment	:	<p>1. The government of the People's Republic of Bangladesh has planned to undertake a project for the Restoration and extension of Andar Killa Shahi Jame Masjid Complex. Under this project, the construction and beautification of the mosque complex will be carried out keeping the infrastructure of the mosque built four hundred years ago. Currently, about 10000 Musallis can pray in every Juma'ah prayers in between this mosque, barandas and sahan. Expansion work of the mosque will be completed under the project for up to 15,000 Musallis holding capacity. For the purpose of restoring the 400 years old archaeological mosque, proper expression of interest from the competent architectural consulting firm is being invited to work on the mosque restoration & expansion, which has modern amenities.</p> <p>2. Islamic Foundation invites Expression of Interests (EOIs) for recruitment of Architectural Design Services from eligible consulting firms to provide the following services:</p> <ol style="list-style-type: none"> 1. Maintaining the architectural beauty and the quality of decorated work of the mosque built in Mughal period 400 years ago; 2. The main structures of the mosque with one big dome and with other 2 domes have to be considered; 3. The Venice Charter 1964 will be followed in the case of archaeological observations; 4. To make the Architectural design the Archaeological Act (Anti Quites Act, 1968) and the Chittagong Development Authority's construction rules should be followed; 5. The adjoining shops, Wazukhana, Toilets should be rehabilitated in the new mosque complex design; 6. The principles and methods for detail architectural documentation of the Mughal mosque should be mentioned; 7. With the archaeological history of Andar Killa mosque, it is necessary to ensure the compatibility of the proposed mosque; 8. According to the perception of the architectural consulting firm, a core zone or buffer zone should be identified to preserve the heritage of ancient mosques; 9. The implementation work should be done in 2 steps in the light of the architectural design, so that the 1st step is to restore the heritage part and next expansion of 2nd phase; 10. To keep the prayers of the devotees during the construction work of the mosque should
